

ABB K-TEK

State-of-the-art level instrumentation for liquid & bulk solids.

- Pressure & Temperature Switches
- Specialty Level Instruments
- Vibrating Fork Level Switches
- Magnetic Level Switches

ABB PROCESS ANALYTICS

Providing real-time analysis of a process sample or stream.

- Process Gas Chromatographs
- Process Mass Spectrometers
- Physical Property Analyzers
- Process/Laboratory FTIR Analyzers

ABB FLOW-X SPIRIT IT

Innovative solutions, sustainable measurement & control.

- Flow-X Flow Computers
- eXlerate Supervisory Software

ABB UPSTREAM OIL & GAS TOTALFLOW

Single source for all measurement & automation needs.

- Natural Gas BTU Measurement
- Oilfield Level Measurement
- Oil/Gas Production Enhancement
- Oil/Gas Well Production Automation

FREEWAVE

FREEWAVE TECHNOLOGIES

The most diverse family of high-performance & durable radios.

- Spectrum Radios
- High Throughput/Ethernet Radios
- Licensed Frequency Radios
- I/O Series Radios

PARKER - PGI

Total product capability for process, power & gas industries.

- Instrument Valves & Manifolds
- Liquid & Gas Sampling Systems
- Sample Probes & Cylinders
- Heated Sample Enclosures

SOLUTIONS WITH INNOVATION

SOLUTIONS WITH INNOVATION

Design & manufacturer of fluid routing control equipment.

- Sensors & Switches
- Transmitters
- Indicators

METSO JAMESBURY

Automated on/off & tight shut-off rotary valves; network-ready.

- Ball, Flanged & Butterfly Valves
- Special Service Valves
- Manual & Actuated Valves
- Flanged Ball Valves

METSO VALVCON

Rugged, reliable actuators built for hard work.

- Network Capable Electric Actuator
- Economical Reversing Electric Actuator
- Continuous Duty Electric Actuator
- Electronic Spring Return Electric Actuator
- Oil & Gas Field Electric Actuator
- Powered Electric Actuator

RAJANT WIRELESS NETWORKS

Voice, video and data communications that operate over a common wireless infrastructure.

- LX Series
- ME Series
- KM Series

TURNKEY SOLUTIONS

Industry Leader in Oil & Gas Field Service

WM Automation Service, LLC (WMAS) provides measurement, control and production enhancement turnkey solutions. Utilizing industry-leading hardware and a highly-skilled workforce, WMAS helps our customers accomplish their automation projects quickly and efficiently.

Years of experience, factory-trained, and safety-certified, WMAS technicians and account managers assist our customers in choosing the correct hardware and other details — properly selected to fit the application — every time.

APPLICATIONS

We can help you find the right solution for your automation project. Our services include but are not limited to:

- Natural Gas Measurement & Control
- Coriolis Oil & Gas Measurement
- Production Automation & Enhancement
- Tank Level Measurement
- Radio Communications
- Liquids Flow Measurement
- H2S Measurement & Shut-in
- Calibration & Troubleshooting of EFM Equipment
- Trace Oxygen Measurement & Shut-in
- SCADA
- Custom Human Machine Interfaces

MULTITECH

Develops and manufactures data communications equipment for the industrial IoT

Certified, carrier-approved modems, routers, and gateways to enable IoT and M2M applications on wired, cellular, and LoRa networks.

CAMIUM NETWORKS

Wireless Connectivity Solutions
PMP 450i Access Point
PMP 450i 900 MHz SM & AP

INDUSTRIAL CONTROL ELECTRICIANS

1-Year EXTENDED WARRANTY

applies to ABB VFD start-up service by Winn-Marion on ABB ACS550, ACS550, ACS550, ACS550, DCS800, ACS880

As an authorized service provider for ABB Drives start-up, Winn-Marion's Industrial Controls Electricians are ready to assist you. With on-site repair service, you can safely minimize production and process downtime.

SERVICES

- Commissioning** - optimize performance
- Proper Installation** - successful life-cycle
- Spare Parts** - genuine parts
- Engineered Solutions** - ABB-certified
- Extended Warranty** - peace of mind
- Predictive Maintenance** - increase uptime
- Retrofit Service** - bring drives up-to-date
- Drive Care** - longer asset life, lower costs

SERVICE

WM Automation Service, LLC

Turnkey Automation - Oil & Gas Wellheads • Tank Batteries Separators • Multi-Well Pad Plunger Lift Control

Communications - Spread Spectrum & Licensed Frequency • Radio Systems • Network Design • Radio Path Studies • Ethernet Radios • Satellite

Troubleshooting - Gas Measurement • SCADA • Radio Communications • Automation Systems

Calibrations - Gas Sampling • Flow Calibrations

Industrial Control Electricians - Certified ABB VFD Start-up • Field Electrical Installations • Heat Trace

Analyzers - Gas Chromatographs • Continuous Gas Analyzers

BTU Analyzers • pH, Silica, Conductivity • Trace Oxygen • H₂S

Heat Tracing Instruments - Steam • Electric • Pre-Insulated Tubing Bundles

Transmitters - Differential Pressure • Gauge • Absolute Fully Welded Remote Seals • Multivariable • SIL 2 & SIL 3

Flow Meters - Coriolis • Magnetic Flow Meters • Precision DP Flow

Controllers - Single Loop Controllers • DCS • PLC • RTU

Recorders - Circular Chart • Videographic • Strip Chart

Valves - On/Off • Control Valves

Governors - Mechanical & Electric • Catalysts & Air Fuel Ratio

SALES

Winn-Marion Barber, LLC

Plant Control Systems - Human Machine Interface (HMI) Design & Integration • Protection System Design • Remote I/O • PLC • DCS

Field Service

Training

Engine Control - Emissions Control • Speed Control • Protection Systems • Mechanical Governor Upgrades

Turbine Control - Speed Control • Load Control • Protection Systems Steam • Valve Actuation • Mechanical Governor Upgrades

Generator Control - Start/Stop Sequencing • Load Control • Remote Monitoring • Protection Systems

Turnkey Design, Installation and Commissioning of All

CONTROLS
